

For this term please look at the chart below and choose a homework task that you would like to do over the weekend. Tick off what you do, so that each week you can choose a different task.

<p>We know you are good at counting forwards to 20. Can you start at 20 and count backwards? (You may want to write them going forwards first, then look at that to help you count backwards and write them)</p>	<p>Can you write some sentences to tell us what you have been doing over the weekend? Remember your capital letter at the beginning and full stop at the end</p>
<p>We are learning about animals in science. Can you do some research to find different types of animal - mammal, fish, bird, reptile and amphibian.</p>	<p>Make a poster about your favourite dinosaur. Include some written description of the dinosaur, a picture and some facts. (This could be in this book or on a separate piece of paper)</p>
<p>We are learning the capital letters and the lower case letters. Can you look in newspapers and magazines, find some capital letters and stick them in this book? Can you write the lower case letter that matches that capital letter? (Eg (B-b)</p>	<p>We are learning to spell and write the number words for example: 1-one, 2-two. Can you write a list from one to twenty. Be careful some of these words have tricky spellings that you can't sound out!</p>
